Task-driven, innovative developer with 3 years of experience in web development, including freelancing, professional courses, and boot-camp training. Proficient in creating responsive websites from scratch as well as maintaining websites for clients. Quick learner with excellent troubleshooting skills, capable of working independently or collaboratively. Expertise in JavaScript frameworks such as ReactJS, Next.js, Express.js and InertiaJS.

WORK EXPERIENCE

Freelance Web Developer Since October 2021

Self-Employed Morocco, Marrakesh

(Next.js 14, Prisma, TiDB, MySQL, React Query, Clerk, TailwindCSS)

GPTClone: an application utilizing the power of OpenAI API, demonstrating advanced features of Next.js.

- Integrated Prisma with TiDB using MySQL for robust database management.
- Maximized data fetching efficiency with React Query, optimizing the application's responsiveness and user experience.
- Implemented Clerk for smooth authentication processes while safeguarding sensitive data.
- Designed the application with TailwindCSS to ensure a responsive and modern user interface.

(ReactJS 18, Express.js, MongoDB, Redux, React Query, Auth0, Styled Component)

JobSeeker: a robust application for managing job submissions built with MERN stack.

- Implemented user authentication using Auth0 for secure and smooth login processes.
- Utilized Recharts to visualize application data with dynamic charts, providing analytics for tracking progress and trends.
- Empowered users with CRUD functionalities for managing job listings.
- Crafted the user interface of JobSeekr using Styled Component, ensuring a modern and responsive design across devices.

(Laravel, ReactJS 18, MySQL, TailwindCSS, Hostinger)

SwiftSpeak: A messenger application tailored for small businesses, allowing smooth communication and collaboration among users.

- Leveraged Laravel with InertiaJS for efficient server-side rendering and ReactJS for dynamic front-end interactions.
- Integrated Laravel Reverb for real-time messaging capabilities, ensuring instant communication.
- Utilized MySQL for robust data storage and management, facilitating smooth user interactions.
- Styled the application with TailwindCSS to deliver a visually appealing and responsive user interface.

(ReactJS 18, Redux, Styled Component, Contentful)

Portfolio: a personal portfolio website showcasing skills and projects in an interactive manner.

- Integrated Contentful as Headless CMS: Integrated Contentful as a headless CMS for easy content management, enabling hassle-free updates and additions.
- Highlighted experience, skills and tech stacks with clarity, providing visitors with a comprehensive view of expertise and capabilities.
- Delivered an exceptional UI experience with cool and intuitive design elements, setting the portfolio apart as a standout example of modern web development

Mobile / Web Developer From November 2021 to October 2022

YouCode (OCP/Simplon) Morocco, Safi

Successfully completed a web development boot camp, gaining a solid foundation in web development principles and technologies by building:

- **Shopping Website (PHP, MVC, OOP):** Developed a responsive shopping website using PHP, MVC, and OOP, demonstrating proficiency in server-side development concepts.
- **Responsive Car Buying Website (JavaScript):** Built a responsive car buying website with JavaScript, showcasing the ability to apply JavaScript for interactive features.
- **Banking System (C):** Developed a secure banking system using the C language in an OOP architecture.
- **Car Rental Website (HTML/CSS):** Created a visually appealing car rental website using HTML and CSS.
